

## WTIA Safe Cutting and Welding WTIA TN7 and TN22

This course focuses on the Identification of hazards and the implementation of risk management for safe cutting and welding operations.

Training is delivered on behalf of WTIA Welding Technology Institute of Australia and represents overall interests of the welding industry.

### Our Aims

- To provide a friendly, relaxed and comfortable learning environment
- To support (if necessary), any special needs you may have with your learning, to the best of our ability and to ensure your training is enjoyable and meets your specific learning needs.

### Duration of Training

2 Day Course

### Training Includes

Identifying hazards and implementing risk management for safe cutting and welding operations.

The Competency Level Achieved in this course will be the ability to

- Select
- Set up
- Operate
- Shutdown Welding and Cutting equipment safely

### Location

The course can either be conducted at our customised skills training centre or on request, at client sites.

### Assessment

Learning and assessment activities will be conducted by assessors using a range of evidence gathering techniques throughout the course including written and practical assessments.

Your trainer and assessor will clearly explain the assessment process to you and support you where necessary to ensure you have a full understanding of the assessment process prior to commencing any assessment.

### Outcomes

Practical understanding of the associated hazards and safe use of cutting and welding equipment.

Capable Training delivers WTIA Safe Cutting and Welding course on behalf of WTIA. Upon successful completion of the WTIA course candidates will be issued with a certificate of Attendance from Capability Resources as well as a Certificate from WTIA in Safe Cutting and Welding.
