PERFECTLY SUITED TO ALL POWER FAILURE SITUATIONS

Thanks to its expertise and knowledge in the energy business, KOHLER-SDMO offers a wide range of automatic changeover switches. SDMO Industries is able to meet all your requirements and adapt to each of your needs. The KOHLER-SDMO offer comprises 3 product ranges.

VERSO 100

This automatic changeover switch, which is reliable and simple to use, is equipped with the main functions of this type of equipment. The range extends from 35 to 160A.

VERSO 200

The Verso 200 is an automatic changeover switch intended for larger installations. This version is available from 200 to 630A in an IP20 metal control unit (IP55 on request) and from 800 to 3200A in an IP55 control unit.

ADVANTAGES OF THE PRODUCT

- A complete product, supplied in the form of a fully assembled solution and tested according to standard IEC* 60947-6-1.
- Double integrated power supply (autonomous).
- Padlocking can be configured in 3 positions (I, O, II).
- Robust switch-disconnector.
- Clear mechanical indicator of the changeover switch position (I-O-II).
- Intrinsic mechanical locking.
- Automatic genset start-up.
- High dynamic resistance for even greater safety, in the case of a short circuit closure.
- Presence of a manual control for all emergency interventions.
- Simple and clear readout of the status of the installation.
